## Your Voice Can Help Shape Future Parks!

Please join us for a focus group and share your thoughts about parks and recreational programs in your community.

1. Has a park and recreation program changed your life? How?
2. We understand there may be health and safety challenges within your community. What types of park projects or programs do you think can help, and why?
3. Has your view of your local park and recreation provider changed since the pandemic?
4. Is there anything else you want to tell State leaders about parks and recreation in your community?
